Letter of Authorisation

I, [REDACTED], confirm that I am duly authorised to act on behalf of [REDACTED] with the address [REDACTED], have the exclusive right to use the IP address range [REDACTED] and Autonomous System Number (if applicable) [REDACTED] and hereby grant IONOS, [IONOS Cloud Ltd., No. 2 Cathedral Walk, The Forum, Gloucester, GL1 1AU, United Kingdom] ('IONOS'), the following permissions:

- When using Bring Your Own IP ("BYOIP"): permission to announce the IP addresses on the Internet using IONOS's ASN
- When using Bring Your Own ASN ("BYOASN"): permission to establish a BGP session with my Autonomous System, to receive and send routing information to and from my Autonomous System, and to forward traffic to and from my network using my own ASN

I confirm that I have the necessary permissions and authorisations to use the above-mentioned IP addresses and ASN and that I am responsible for the registration and management with the relevant registries.

Furthermore I represent and warrant that I have taken the necessary steps to ensure that the IP addresses and ASNs are correctly configured. In particular those are:

- I have ensured that the IRR databases contain accurate and up-to-date information.
- I have ensured that the IP address range is correctly registered in the relevant IRR databases.
- I have created and will maintain accurate and up-to-date Route objects in the relevant IRR databases.
- I have created the correct RPKI-ROAs with the correct prefix lengths and origin AS, which in the case of BYOIP is AS8560 (IONOS), and in the case of BYOASN is my own ASN.
- When using BYOASN: I have reviewed and verified the RPSL policy in the AUTNUM object of my Autonomous System Number in the RIR and ensured that AS8560 (IONOS) is authorised as an upstream of my Autonomous System.

IONOS may decline any request for any reason whatsoever, in its sole discretion. IONOS reserves the right to request additional information and or documentation prior to carrying out the request in its sole discretion.

This Letter of Authorisation (LoA) is valid until revoked by you or terminated by either party. This LoA may be revoked by you at any time by providing written notice to the IONOS support team via email at support@cloud.ionos.co.uk. The revocation will take effect four (4) weeks from the date the notice was received.

In the event of termination by either party of the IONOS contract relating to this LoA, this LoA will automatically terminate. IONOS will remove the IP addresses and ASN from their systems as soon as is reasonably possible after the termination takes effect.

This request and any actions taken in response thereto by IONOS Cloud Limited (IONOS) is governed by the terms of IONOS' General Terms and Conditions of Service (the "GT&C"). By signing this LoA you agree and reaffirm that they have read, understand, and agree to be bound by the GT&C in their entirety, including the supplemental terms. The GT&C can be found at <https://www.ionos.co.uk/>.

I, [REDACTED], confirm that I have read, understood and agree to the above conditions and that I grant IONOS the aforementioned permissions.
